* Stream Closures - Special Low Flow Conditions:

- October 1 - January 31 for the main stem of the Smith River from the mouth of Rowdy Creek to its confluence with Patrick Creek; the South Fork Smith River from the mouth to its confluence with Jones Creek; and the North Fork Smith River from the mouth to its confluence with Stony Creek.
- Minimum flow: 400 cfs measured at the Jedediah Smith Redwoods SP gaging station.
- The Department of Fish and Game determines flow conditions for Tuesday and Wednesday, Thursday and Friday, and Saturday through Monday. Call (707) 442-4502 to check if the Smith River will be open or closed to fishing. The recorded message is updated by 1 P.M. each Monday, Wednesday, and Friday.

Silver (coho) salmon - Silver salmon are fully protected at the state and federal level as a threatened species. Coho may not be taken from any California waters. Incidentally hooked coho salmon must be immediately released unharmed to the waters where they were hooked.

♦ Hatchery trout or steelhead are those missing an adipose fin and having a healed scar. Wild trout or steelhead are those having an intact adipose fin.

Refer to California Sport Fishing Regulations and the latest supplements for more details, or call the California Department of Fish and Game in Eureka at (707) 445-6493. Regulations are effective through February 28, 2008 unless modified.
